Ashley,

Please keep your 105 for 3910 120005. I had Jeffrey develop a research package for the Lan East portion of this project. When Doc'm comes back up, please take a look at the research package and let me know if there is anything of concern related to biological resources that hasn't already been identified for the other 3 portions of the project.

Thanks,
Rob

Subject: Specialist Tasks

Hi Rob and Mark,

I have 105 tasks for 3993-12-066 and 3910-120005. I think these are both for Soitec and I don't think and 105 review is needed. Can you please confirm and I will have the tasks deleted?

Thanks,

Ashley
